ORGAN DONATION – THE GIFT OF LIFE!

Chantelle van Zyl

I have been a registered organ donor for almost 10 years, as I feel very strong about the possibility of helping others in need. The reality is that organ donors save lives. Organ Donation is made possible by people who voluntarily decide to donate their organs and tissue for transplantation. There are two types of transplants - organ, and tissue transplants. The organs (heart,

liver, pancreas, kidneys, and lungs) can save 7 lives. The tissues (corneas, bone, tendons, heart valves, skin) can help up to 50 people. By becoming a donor, you have the potential of helping over 50 people when they die.

There are many fears and misconceptions about organ donation. These fears and misconceptions prevent people from considering donating their organs when they die, which leads

to many preventable organ failure deaths. A few of these fears are leaving your body disfigured, a delay in the funeral, and even religious obligations, but the Organ Donor Foundation ensures that extreme amounts of respect and dignity is given to every single donor, and that the method of removing the organs and tissues is done with such great care that the process does not change the body's appearance. The body is returned to the family for burial or cremation as soon as the donated organs and/or tissues have been removed, and most religions approve and support organ donation, as it is consistent with life preservation. If you are ever unsure, ask your spiritual leader.

There are approximately 4,300 South African adults

and children awaiting a life-saving organ or cornea transplant. Anyone can be a potential donor, irrespective of age, race or medical history. New-born babies and even the elderly have been organ donors. If a donor is under the age of 18, the consent of a parent or legal guardian is required. Adults can also make living donations, meaning that a living adult can choose to give an organ, like a kidney, or part of an organ, like a liver, to someone in need.

With the season of giving fast approaching, why not be the difference between life or death for someone else one day, and give the ultimate gift – the gift of life! Register online at www.odf.org.za or call the Organ Donor Foundation on their toll-free number – 0800 22 66 11.

We're taking a Break

Please note that Maluti Media will not take new jobs after Monday the 30th of November, as we will close for the Festive Season on Tuesday the 15th of December 2020, and re-open for the New Year on Monday the 04th of January 2021.

We thank you for your patronage, and wish you all the warmest of holiday cheer!

SANTA SHOE BOX CELEBRATIONS!

Correspondent

As promised, Santa Shoe Box Ladybrand is going to share some wonderful experiences with you at the celebrations of Spitzkop, Yu Blessed Deng Day Care, Hospice, Gedenk Kinderhuis, Bodibeng (Thaba Patsoa) and Assisi (Marselles) last Thursday and Friday.

They did not know what was happening when the truck arrived filled with boxes.

As we unpacked the boxes, and stacked these beautifully wrapped gift boxes onto the tables, their eyes grew bigger and bigger.

After the protocol was done, we immediately started calling their names out to

collect their boxes.

We were overwhelmed at the joy and appreciation these children showed when handing their gifts to them.

The biggest enjoyment was when they opened their boxes and saw all the gifts that were inside.

Some of them were so excited with the clothing, that they put them over their school clothing and danced around the field.

Others hugged their fluffy toys, and of course some were delighted with the sweets.

All of this could not have been possible, if it was not for the generosity of our Community, our neighboring Community, Bloemfontein, Businesses,

RED VELVET CHEESECAKE BITES

Covered in red velvet cake crumbs, these sweet cheesecake balls are the perfect small bite for any holiday party.

Ingredients:

- 1 box red velvet cake mix, plus ingredients called for on box
- 2 blocks cream cheese, softened
- 1/2 c. powdered sugar
- 2 tsp. heavy cream
- 1 tsp. pure vanilla extract

Method:

Preheat oven to 180°C and line a muffin pan with cupcake liners. Prepare red velvet cake batter according to box directions. Divide batter among liners and bake until a toothpick inserted in the center comes out clean, 18 to 20 minutes. Let cool completely. Break 4 cupcakes into small crumbs. Save remaining cakes for another use. In a large bowl using a hand mixer, beat cream cheese and powdered sugar until light and fluffy. Add heavy cream and vanilla and beat until stiff peaks form. Line a large baking sheet with parchment. Using a small cookie scoop, scoop cream cheese mixture into balls and place on prepared baking sheet. Transfer to the freezer to chill, 1 hour. Roll balls in red velvet cake crumbs until fully coated, then return to prepared baking sheet. Refrigerate until ready to serve.
